June 9, 2020

*First Quarter Net Sales Increased 32.8%*  
*First Quarter Comparable Sales Increased 50.0%*

STAMFORD, Conn., June 09, 2020 (GLOBE NEWSWIRE) -- The Lovesac Company (Nasdaq: LOVE) ("Lovesac" or the "Company") today announced its financial results for the first quarter of fiscal 2021, which ended May 3, 2020.

Shawn Nelson, Chief Executive Officer, stated, "Amid the global dislocation caused by the COVID-19 pandemic, Lovesac's first quarter results affirm the resilience and compassion of our team, the benefit of our diversified channel mix, and the fundamental appeal of the Lovesac brand. These positive attributes contributed to the quarter's strong results with nearly 33% total company sales growth, including a 255% increase in our e-commerce sales. We were also pleased that our operating loss improved by almost \$1 million from the prior year period despite our entire fleet of showrooms being closed for half the quarter."

Mr. Nelson added, "Lovesac's origins as an 'e-commerce-first' platform confers a distinct competitive advantage in this environment. Our logistical expertise, processes, and cultural underpinnings are evident in our shippable product offering, agile and lean multi-channel operating model, and dynamic digital marketing efforts. As we move into the re-opening phase, we are taking a thoughtful and measured approach to re-opening showrooms, governed by local regulations and with the health and safety of our employees and customers as our highest priority. The power of our business model, the execution and commitment of our entire team, combined with our strong balance sheet and financial position, will continue to serve us well as we move into this next phase and beyond."

	Percent Increase (Decrease), except showroom count	
	Quarter Ended May 3, 2020	Quarter Ended May 5, 2019
Total Comparable Sales <sup>(2)(3)</sup>	50.0%	43.1%
Comparable Showroom Sales <sup>(3)</sup>	(31.7%)	31.7%
Comparable Internet Sales <sup>(3)</sup>	258.3%	83.8%
Ending Showroom Count	91	78

<sup>2</sup> Total comparable sales include showroom and internet transactions through the point of sale.

<sup>3</sup> Comparable sales reflect transactions through the point of sale and not necessarily product that has shipped to the customer. Product that has shipped to the customer is what is included in Net Sales. Showrooms were closed as required by local and state laws as a result of the Covid-19 pandemic effective March 18, 2020 through the remainder of the first quarter.

### **Highlights for the First Quarter Ended May 3, 2020:**

- The net sales increase of 32.8% was driven by an increase in internet sales of 255.4%, an increase of 11.0% in "Other"

sales (which includes shop in shops and pop-up shops), partially offset by a decrease in showroom sales of (32.7%) due to the impact of showroom closures related to COVID-19.

- The gross profit increase of 30.0% was primarily due to the increase in net sales, partially offset by the impact of tariffs. The approximately 110 basis point decrease in gross margin versus the prior year period reflects an increase of approximately 300 basis points in distribution and tariff related expenses, partially offset by improvements of approximately 190 basis points in product costs as a result of vendor negotiations associated with tariff mitigation and continued shift of product sourcing from China to Vietnam and Malaysia.
- SG&A expense in the first quarter of fiscal 2021 and first quarter of fiscal 2020 included less than \$0.2 million of other non-recurring expenses related to financing and executive recruitment fees, respectively. SG&A expense as a percent of net sales decreased 1080 basis points primarily due to leverage of employment costs, rent and professional fees as well as a decrease in equity-based compensation, partially offset by increases in selling related expenses.
- Advertising and marketing expense in the first quarter of fiscal 2021 increased approximately 52% over the prior year quarter principally due to increased media and direct-to-consumer program spend which contributed to the first quarter sales increase over the prior year period.
- Operating loss was \$8.4 million in the first quarter of fiscal 2021 compared to \$9.3 million in the prior year period. Operating margin improved to (15.4%) of net sales from (22.8%) of net sales in the prior year period.
- Net loss was \$8.3 million in the first quarter of fiscal 2021 compared to \$9.1 million in the prior year period.

#### **Non-GAAP Information**

This press release includes the following financial measures defined as non-GAAP financial measures by the Securities and Exchange Commission (the "SEC"): Adjusted Net Loss and Adjusted EBITDA. We define Adjusted EBITDA as net loss less interest income, plus income tax expense, depreciation and amortization, management fees, deferred rent, equity-based compensation, net (gain) or loss on the disposal of property and equipment, one-time IPO-related expenses, and fees associated with fundraising and reorganizing activities. The Company has reconciled these non-GAAP financial measures with the most directly comparable GAAP financial measures hereunder. The Company believes that these non-GAAP financial measures not only provide its management with comparable financial data for internal financial analysis but also provide meaningful supplemental information to investors. Specifically, these non-GAAP financial measures allow investors to better understand the performance of the Company's business and facilitate a more meaningful comparison of its actual results on a period-over-period basis. The Company has provided this information as a means to evaluate the results of its ongoing operations. Other companies in the Company's industry may calculate these items differently than the Company does. Each of these measures is not a measure of performance under GAAP and should not be considered as a substitute for the most directly comparable financial measures prepared in accordance with GAAP, such as net income/loss. Non-GAAP financial measures have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for analysis of the Company's results as reported under GAAP.
