THE LOVESAC COMPANY REPORTS FOURTH QUARTER AND FISCAL 2025 FINANCIAL RESULTS

Fourth Quarter Net Sales of \$241.5 million
Fiscal Year Net Sales of \$680.6 million

STAMFORD, Conn., April 10, 2025 (GLOBE NEWSWIRE) -- The Lovesac Company (Nasdaq: LOVE) (“Lovesac” or the “Company”), the Designed for Life home and technology brand best known for its Sactionals, The World’s Most Adaptable Couch, today announced financial results for the fourth quarter and full year fiscal 2025, which ended February 2, 2025.

Note: Lovesac's prior year fourth quarter and fiscal 2024 results contain an additional, non-comparable week, or the "53rd week", when compared to the fourth quarter and full year results for the respective 52- and 13-week periods ended February 2, 2025 (“fiscal 2025”), and full year guidance for the 52-week fiscal year ending February 1, 2026 (“fiscal 2026”). Unless stated otherwise, financial metrics discussed in this release, such as net sales, operating income, net income and net income per share, are calculated in accordance with generally accepted accounting principles (“GAAP”) and therefore include the 53rd week for the applicable prior year fiscal 2024 periods.

Shawn Nelson, Chief Executive Officer, stated, “Fiscal 2025 was a milestone year for Lovesac. We had our most prolific year ever for new product launches, having gained significant momentum in innovation and commercialization of Designed for Life (DFL) platform extensions, including an early launch of the Sactionals Reclining Seat. We codified our long-term strategy and value creation model, delivered at our first ever Investor Day, and unveiled the first of three completely new platforms we plan to launch over the next three years: the EverCouchTM. We strengthened the foundations of our business having reinvented our supply chain and dramatically enhanced our CRM tools to deepen and broaden the moat around our unique omnichannel business model. We believe these strategic actions and developments position us well to profitably scale our brand and business for years to come.”

Mr. Nelson continued, “After a slow start to the holiday selling season, strong execution by our teams dramatically improved conversion of customer quotes to sales throughout the remainder of the fourth quarter. This supported a mid-teens year-over-year increase in net income for the quarter and helped close out another year of market share gains for full year Fiscal 2025. While macro conditions were, and remain, frustratingly challenging, we are optimistic and enter Fiscal 2026 in a position of strength. We believe Lovesac’s secular growth potential is massive. Our business model uniquely positions us to capitalize on macro upside whenever it does materialize, and without the need to over commit early during periods of uncertainty. Last, we have a healthy balance sheet and retain optionality for enhancing ROIC and/or accelerating profitable growth as opportunities arise.”

Non-GAAP Information:

Adjusted EBITDA is defined as a non-GAAP financial measure by the Securities and Exchange Commission (the "SEC") that is a supplemental measure of financial performance not required by, or presented in accordance with, GAAP. We define "Adjusted EBITDA" as earnings before interest, taxes, depreciation and amortization, adjusted for the impact of certain non-cash and other items that we do not consider in our evaluation of ongoing operating performance. These items include management fees, equity-based compensation expense, write-offs of property and equipment, deferred rent, financing expenses and certain other charges and gains that we do not believe reflect our underlying business performance. We have reconciled this non-GAAP financial measure with the most directly comparable GAAP financial measure within the schedules attached hereto. Statements regarding our expectations as to fiscal 2026 Adjusted EBITDA do not include certain charges and costs. These items include equity-based compensation expense and certain other charges and gains that we do not believe reflect our underlying business performance. We are not able to provide a reconciliation of our non-GAAP financial guidance to the corresponding GAAP measures without unreasonable effort because of the uncertainty and variability of the nature and amount of these future charges and costs. This is due to the inherent difficulty of forecasting the timing of certain events that have not yet occurred and are out of the Company's control.

We believe that these non-GAAP financial measures not only provide its management with comparable financial data for internal financial analysis but also provide meaningful supplemental information to investors. Specifically, these non-GAAP financial measures allow investors to better understand the performance of our business, facilitate a more meaningful comparison of our actual results on a period-over-period basis and provide for a more complete understanding of factors and trends affecting our business. We have provided this information as a means to evaluate the results of our ongoing operations alongside GAAP measures such as gross profit, operating income (loss) and net income (loss). Other

companies in our industry may calculate these items differently than we do. These non-GAAP measures should not be considered as a substitute for the most directly comparable financial measures prepared in accordance with GAAP, such as net income (loss) or net income (loss) per share as a measure of financial performance, cash flows from operating activities as a measure of liquidity, or any other performance measure derived in accordance with GAAP. Non-GAAP financial measures have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for analysis of the Company's results as reported under GAAP.
